

OVERVIEW

ZENIX is a family of locator and gateway systems built on advanced and innovative IoT hardware and software platforms. It provides positioning and communication for Smart Buildings, Healthcare, and Industry. The **ZENIX LEF-3** is an outdoor BLE Locator and gateway that collects data by scanning beacons and tags.

The **ZENIX LEF-3** is a BLE Scanner & Locator with POE, Wi-Fi interface, LTE connectivity, and GPS positioning. It collects data by scanning beacons using its external antenna. It provides real-time positioning information about the beacons in the vicinity. The external antenna allows longer-range outdoor positioning.

The **ZENIX LEF-3** uses an embedded processor with Sentrax's advanced BLE scanning firmware. It also includes an easy wall/pole mount system.

ENCLOSURE

Type:

BLE 5.1 Scanner

Material

ABS

Color

Off-White

Weight

266g

Dimensions

175mm x 130mm x 45mm

Accessories

Wall/Pole Mount

Protection Class

IP67

Antenna Type

External antenna

SENSORS AND INTERFACES

Button	1 User Button
Power LED	1 Red LED
Status LED	1 Green LED
Sim Slot	LTE Connectivity

FEATURES

- BLE filtering (Sentrax's Proprietary Algorithm)
- GPS Positioning
- Enable LAN, WIFI & LTE Connectivity
- Beacon PDU Extraction
- Remote tag devices configuration & update

SOFTWARE - CONNECTIVITY

Sentrax's Solix Platform, MQTT*

CERTIFICATIONS

CE, FCC***

ENVIRONMENT

Frequency:

2.4GHz

Sensing:

Protocol	BLE 5.1
Rx-Sensitivity	-103 dBm
Antenna	External Antenna
Range	10-50m**

HARDWARE - CONNECTIVITY

Supply Rating	18 Watts (12 V)
Communication	RJ45 - Ethernet (POE) WIFI - 2.4GHz b/g/n LTE Connectivity
Power Options	RJ45 - POE 802.3af DC Adapter - 12 V/1.5A

ACCESSORIES

- DC 12V/1.5A Adapter
- POE Communication Cable
- Two External Antennas
- Mounting Screws

OPERATING ENVIRONMENT

Temperature Range	0°C to 60°C
Operating Humidity	90%

* Can be configured to send data on local/clients MQTT broker

** Signal propagation depends heavily on environmental conditions

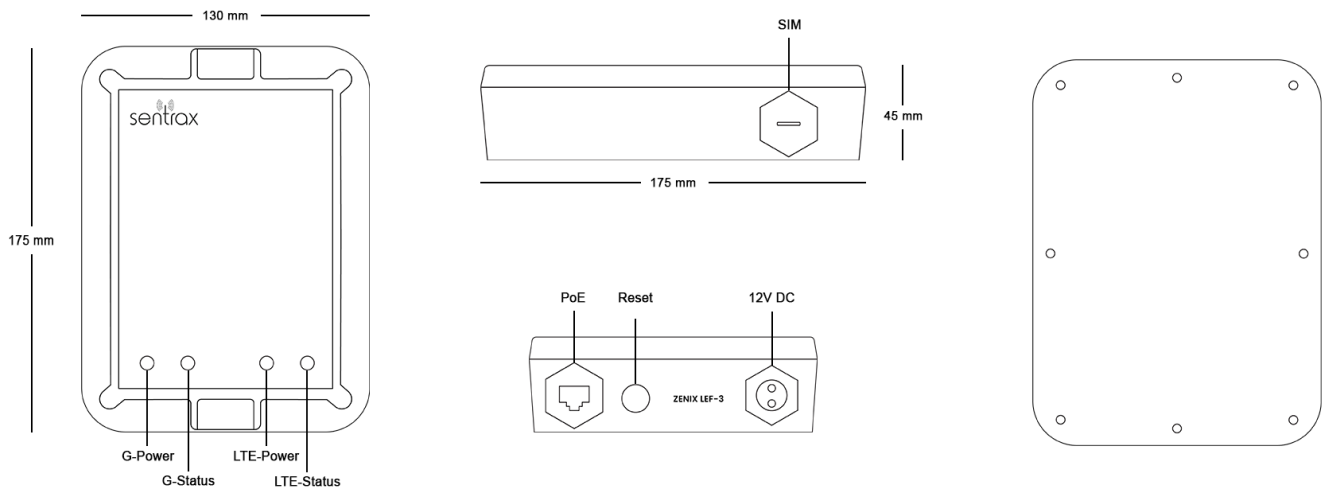

*** Pending

CONFIGURATION PORTAL

The ZENIX Configuration Portal is an embedded web page for configuration and device settings management. With the help of this portal, customers can check the status of the device, change its parameters, backup and restore its configuration/settings, and upgrade firmware

MECHANICAL DRAWINGS

APPLICATION AREAS

- Proximity BLE Tag Tracking
- People Tracking
- BLE Tags Health check Monitoring

CAUTION

- Risk of fire if power is given of an incorrect type or voltage.
- The Antenna port is output only.

RECYCLING

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to the European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

All product names, logos, and brands are the property of their respective owners. All company, product, and service names used in this data sheet are for identification purposes only. Use of these names, logos, and brands does not imply endorsement.
